

MOTOCAP

This MotoCAP safety rating applies to:

Brand:	Resurgence
Model:	Indigo sport
Туре:	Pants - Denim
Date purchased:	29 November 2018
Sizes tested:	36
Gender:	Μ
Style:	All Purpose
Test code:	P18D11

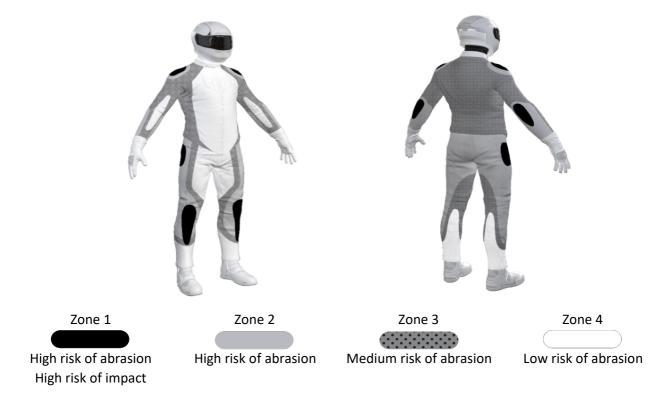

Test Results Summary:

	Rating	Score
MotoCAP Protection Rating	**	36.1
Abrasion	3/10	2.21
Burst	10/10	1017
Impact	7/10	49.5
MotoCAP Comfort Rating	**	0.355
Moisture Vapour Resistance		28.4
Thermal Resistance		0.168
Water resistance	N/A	N/A

This garment is fitted with impact protectors for the knees and hips. There are no vents to allow airflow movement through the garment.

Jacket and Pants - Crash Impact Risk Zones

This diagram is a pictorial representation of the crash impact risk Zones.

Abrasion Resistance

The garment was tested for abrasion resistance in accordance with MotoCAP test protocols. The table below shows the test results for time to abrade through all layers of the materials. Calculated for each sample by Zone, type and area coverage of each material as a proportion of that Zone.

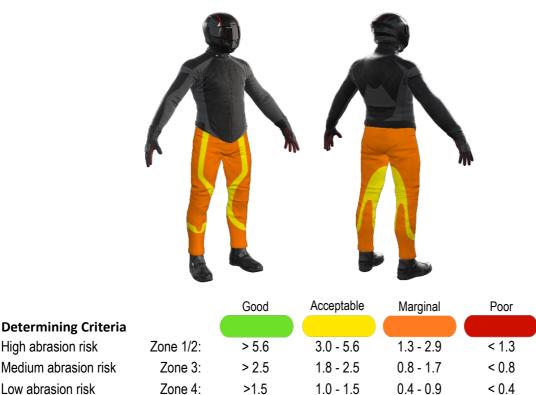

Details of materials used in garment:	
---------------------------------------	--

Material A:	Denim shell, aramid fabric layer and mesh inner liner
Material B:	Denim shell

Zone	Coverage	Abrasion	time for eac	ch test (seo	conds)			Average
	(%)	1	2	3	4	5	6	(seconds)
Zone 1 and 2	areas (High abra	asion risk)						
Material A	100%	2.82	2.75	2.47	1.84	2.45	2.43	2.46 M
Zone 3 area (Medium abrasio	n risk)						
Material A	100%	2.82	2.75	2.47	1.84	2.45	2.43	2.46 A
Zone 4 area (Low abrasion ris	sk)						
Material A	20%	2.82	2.75	2.47	1.84	2.45	2.43	2.46 G
Material B	80%	0.54	0.35	0.45	0.42	0.33	0.32	0.40 M

Abrasion times are capped at a maximum of 10.00s.

The diagram below is a visual indication of the likely abrasion performance of the materials in each zone calculated from the data in the table above. The colour coding is based on the worst performing material in each zone.

High abrasion risk

Low abrasion risk

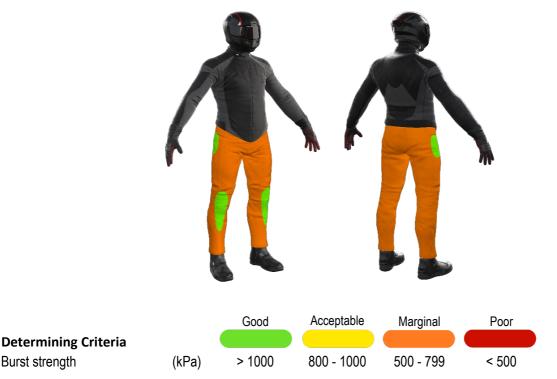

Burst Strength

The garment's burst strength was tested in accordance with MotoCAP test protocols. The table below shows the burst pressure in kilopascals (kPA) for each sample tested by Zone and the average result for each zone.

Burst pressure	(kPA)						
Area	1	2	3	4	5	Average)
Zones 1 & 2	956	1929	1929	1259	1734	1561	G
Zone EZ	765	800	753	548	607	695	Μ
Zones 3 & 4	691	696	553	341	579	572	Μ

The diagram below illustrates the burst strength results in terms of the likely performance of the garment in an impact and is a pictorial representation of the data from the table above.

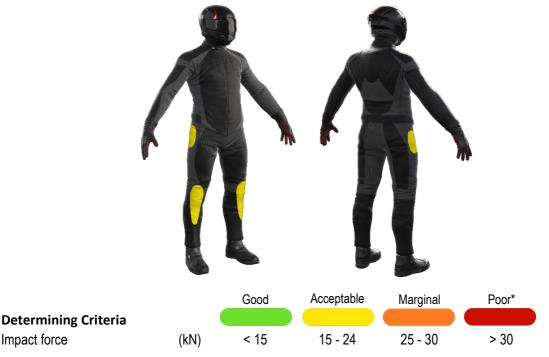

Impact Protection

The garment was tested for impact protection and coverage in accordance with MotoCAP test protocols. The table below shows the test results for each strike on each impact protector in kilonewton (kN) and their area of coverage as a proportion (%) of the Zone.

Impact protector type		Knee			Нір	
Average force (kN)		15.0	A		15.3	Α
Maximum force (kN)		17.5	A		16.9	Α
Coverage of zone 1 area		120%			90%	
Coverage of zone after dis	placement	70%			90%	
Individual test results						
Impact force (kN)	Knee			Нір		
Strike location	Α	В	С	Α	В	С
Impact Protector 1	15.2	14.3	15.7	14.8	14.4	15.6
Impact Protector 2	14.6	14.3	14.5	14.7	15.1	15.7
Impact Protector 3	14.3	17.5	14.5	15.2	16.9	15.1

The diagram below is a visual indication of the likely performance of each impact protector calculated from the data in the table above. The colour coding is based on the worst performing score for average or maximium force for each impact zone.

* Poor may also indicate that no impact protector, or impact protector pocket is present in the garment

Areas shaded black are not considered in the impact protection ratings.

Impact force

Thermal comfort

The garment was tested for thermal comfort following the MotoCAP test protocols. The table below shows the moisture vapour resistance and the thermal resistance values obtained.

	1	2	Average
Moisture Vapour Resistance - R _{et}	27.6	29.2	28.4
(kPam²/W)			
	1	2	Average
	1	2	Anonago
Thermal Resistance - R _{ct}	0.171	0.166	0.168

Water spray and rain resistance

This garment has not been advertised as water resistant so has not been tested for water spray and rain resistance.
